

Dr. ISMAEL KHOULY, DDS, MS, PhD

CURRICULUM VITAE

Dr. Ismael Khouly is a board-certified Diplomate of the American Board of Oral Implantology/Implant Dentistry. Dr. Khouly's dental practice is exclusively limited to implant dentistry (both surgical & restorative phases) as well as bone and soft tissue grafting procedures around dental implants and teeth. Having attended top-tier training institutions in the United States and Europe including New York University (NYU), London University, and Oslo University, Dr. Khouly has developed a unique approach to treating patients. After earning his DDS and master's degree in tissue engineering, he completed three years of advanced program training in implant and comprehensive dentistry at NYU under the guidance and expertise of his mentor, Dr. Dennis Tarnow. He went on to earn a PhD in biomedicine studying sinus bone grafts, graduating summa cum laude and receiving his International Doctorate Certification. Having conducted extensive clinical research in the fields of dental aesthetics, periodontics, implant dentistry and related biomaterials, he has mastered cutting-edge techniques and remains at the forefront of implant dentistry. An accomplished academic and esteemed educator, Dr. Khouly has co-authored 50+ peer-reviewed articles, presented his research at national and international meetings, and given numerous invited talks at venues around the world.

Advanced surgical dental implant procedures, restorative implant dentistry, periodontal procedures, bone and soft tissue grafting procedures around dental implants and teeth.
